DATA ACCESS NETWORK (D.A.N.)

The **Data Access Network** is the pulse of your operation, providing audit information, equipment status, and much more to ensure your business runs as smoothly as possible.

STANDARD FEATURES

- Windows Embedded Standard 7 operating system
- Allows Gold Line® to interface with Hamilton *Hosted Solutions* and Hamilton ExpressPass RFID system
- Supports high-speed credit card transactions
- Remote access: view and print audit reports, clear soft errors, change prices, change messages on door and/or scrolling display
- Validated payment application (PCI PA-DSS)
- Event pricing:
 - D.A.N. allows Gold Line® to automatically change prices, coupon values, welcome prompts, and external display messaging based on the time of day and day of the week
 - implement a recurring event for a single day, or an event for a single date
- Email and text notifications: be notified of an error on any equipment connected to the D.A.N.
- Supports Customer Value Cards (CVC)
 - sell value/gift cards and build a loyal customer base
 - customize with your logo and brand
 - use as either pre-paid or post-pay card
 - allows you to reduce credit card fees
 - same size as credit card

OPTIONS

- Credit card reader/programmer (for Basic or Econo models)
- Transaction receipt printer (allows printing of receipts from D.A.N.)
- Cash drawer and transaction receipt printer combo
